FORENSIC MENTAL HEALTH PROGRAM

At Brown University's Department of Psychiatry and Human Behavior & Rhode Island Hospital Department of Child and Adolescent Psychiatry

Our Forensic Mental Health Program focuses on children, adolescents, adults, and families and their involvement in the legal system. The Forensic Psychiatry Division coordinates a broad range of forensic assessments, treatment, expert witness, training, and other services.

The Forensic Mental Health Program is dedicated to promoting excellence in:

- education
- training
- consultation
- research
- community support

as it pertains to the interface between mental health issues and the legal system.

Currently, we provide forensic mental health services for the State of Rhode Island at:

- Rhode Island Training School
- Rhode Island Family Court
- Department of Children, Youth, and Families
- Rhode Island Adult Correctional Institution
- Eleanor Slater Hospital

The Brown University forensic faculty members:

- represent nationally recognized leaders in their respective fields and professional organizations
- conduct evaluations related to a wide range of forensic assessments in both the civil and criminal arenas
- provide forensic psychiatry/psychology consultation nationally to attorneys, judges and relevant systems in a number of expert areas

The Forensic Mental Health Program is undergoing significant growth in its diversity and relationships with institutions throughout the state of Rhode Island and beyond.
